

SEBASTIAN TABERNERO CAPELLA, Ph Dr

Seu de Urgell 1964 – Valencia 2017

President of the Association Viktor E. Frankl of Valencia

Dies in Valencia at 52 years of age, after 5 months of severe illness.

PhDr. Sebastian Tabernero had as his most important drive in life, his dedication and full readiness when helping others. He did it as family lawyer, caring not only by legal aspects but ethics, mainly focused on children's well-being. As president of the Viktor E Frankl Association and as an active voluntary member of various civil institutions in the city of Valencia.

He was a firm contributor to good causes.

His legacy is captured in his book "The family lawyer in search for meaning". One of his great passions was the synthesis of the teachings of Frankl, and their application to the practice of professional ethics and Family Law.

His other important legacy certainly is the Association Viktor E Frankl, founded in 2001, that is committed to the diffusion of Logotherapy and its applications. The Association has focused from its foundation in addressing areas of human suffering; the lack of hope, the fear of dying and other losses that may drain our lives.

Thousands of people have benefited over the years from the work of the Association and the strength of Sebastian's spirit. Equally, he dedicated his life to dignify and give meaning to his profession as a Lawyer, helping to support people in difficult and painful family situations.

We have been left orphans of his physical presence but he has left with us his vision, dedication and loving energy. We will honor his legacy.

Sebastian, we feel you near, your passion is with us, your life –to the last end-gives us meaning. THANK YOU very much for your existence, which will always be an example and inspires us.

REST IN PEACE.
